

## **CHAPTER V.**

### **CONCLUSION AND SUGGESTION**

In this chapter, The Researcher hopes to provide a conclusion and recommendations to the other researchers on this subject in order to address all of the types of code switching and code-mixing. Furthermore, the author would like to provide some ideas to the readers on how to apply code switching and code-mixing notions in their own research.

#### **5.1 Conclusion**

In this section concludes the study by answering the research questions based on the findings presents in chapter IV. The aim is to highlight the significance of this study in understanding the types of code switching and code mixing used in Video YouTube channel Deddy Corbuziers Podhub “warlok vs bule”.

The writer findings indicate the most frequent instances of code switching discovered 41 points data and 43 points data of code mixing in this study from Video Deddy Corbuzier YouTube Channel PodHub. The utterance data was collected on Friday, July 15<sup>th</sup>, 2025. This study uses Holmes (2001) theory to investigate the various of code switching. Code switching has three types: Intra-sentential code-switching, Inter-sentential code-switching and tag switching. All of three types are identified in this study. In this study, 40 data were discovered: 30 intra-sentential switching, 5 inter-sentential switching, and 6 tag switching.

This study uses Muysken (2000) theory to investigate the various of code mixing. Code mixing is divided into three basic categories, including insertion (word or phrase), alternation (clause), and congruent lexicalization (dialect). In this study identified 43 data of code mixing there are 30 insertion data, 11 substitution data of Alternation, and 2 congruent lexicalization data. In this study, insertion is the type of code mixing that most dominant used by the speaker.

## **5.2 Suggestion**

Finally, the writer will finish up this chapter. The writer conducted the research using code switching and code-mixing, in particular code switching and code mixing used by speaker on the video YouTube channel Deddy Corbuzier Podhub. The writer seeks to provide ideas and guidance in this area in the hopes of increasing the readers' knowledge. The writer also expects that this work will inspire other researchers to seek out similar possibilities. And also, the writer hopes that others can make research with the same object but with different topics in other branch of linguistic studies.
